Notes:

[1] An ACO will be held harmless if their performance on a measure significantly declined, but remained above 90% (or in the case of certain measures, above the 90th percentile benchmark) in both the current year and previous year.

[2] Applicable only to ACOs beyond their first performance year. A domain improvement score of at least 90% receives 4 Quality Improvement Reward points; ≥80% receives 3.56 points; ≥70% receives 3.12 points; ≥60% receives 2.68 points; ≥50% receives 2.24 points; ≥40% receives 1.8 points; ≥30% receives 1.36 points; ≥20% receives 0.92 points; ≥10% receives 0.48 points. A domain improvement score less than 10% receives 0 Quality Improvement Reward points.

[3] For P4P measures: Points are calculated based on the ACO's performance compared to the 2016 quality measure benchmarks; For P4R measures: Full points are awarded if the ACO completely reports.

[4] Equal to ratio of observed to expected admissions, multiplied by the mean observed discharge percentage weighted across all ACOs. For ACO-9, the observed mean is 8.042%. For ACO-10, the observed mean is 14.033%.
